<sup>1</sup> The SUNY and CC aggregated data use estimated persistence for five institutions for the cohorts entering in 2004-2007. Cayuga, Dutchess, Jefferson, Nassau, and Suffolk transitioned to the new SIRIS system and persistence data is not available yet for summary.

<sup>2</sup> Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate.

Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

<sup>1</sup> The SUNY and CC aggregated data use estimated persistence for five institutions for the cohorts entering in 2004-2007. Cayuga, Dutchess, Jefferson, Nassau, and Suffolk transitioned to the new SIRIS system and persistence data is not available yet for summary.

<sup>2</sup> Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate.

Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

**Graduation, Persistence<sup>1</sup> and Attrition of Full-time, First-time Students in Associate Degree Programs,  
STATE UNIVERSITY OF NEW YORK  
Cohorts Entering in Fall 2004 Through Fall 2007, Data Reported as of Fall 2008.**

<sup>1</sup> The SUNY and CC aggregated data use estimated persistence for five institutions for the cohorts entering in 2004-2007. Cayuga, Dutchess, Jefferson, Nassau, and Suffolk transitioned to the new SIRIS system and persistence data is not available yet for summary.

<sup>2</sup> Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

<sup>1</sup> The SUNY and CC aggregated data use estimated persistence for five institutions for the cohorts entering in 2004-2007. Cayuga, Dutchess, Jefferson, Nassau, and Suffolk transitioned to the new SIRIS system and persistence data is not available yet for summary.

<sup>2</sup> Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate.

Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

<sup>1</sup> The SUNY and CC aggregated data use estimated persistence for five institutions for the cohorts entering in 2004-2007. Cayuga, Dutchess, Jefferson, Nassau, and Suffolk transitioned to the new SIRIS system and persistence data is not available yet for summary.

<sup>2</sup> Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

**Graduation, Persistence<sup>1</sup> and Attrition of Full-time, First-time Students in Associate Degree Programs,  
STATE UNIVERSITY OF NEW YORK  
Cohorts Entering in Fall 2004 Through Fall 2007, Data Reported as of Fall 2008.**
