¹ The aggregated SUNY and sector data use estimated persistence data for the 2005 and 2006 entering cohorts for the 12 institutions that transitioned to the new SIRIS System.

² Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

¹ The aggregated SUNY and sector data use estimated persistence data for the 2005 and 2006 entering cohorts for the 12 institutions that transitioned to the new SIRIS System. Persistence data was estimated for the 2005 and 2006 entering cohorts for Adirondack and Cayuga.

² Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

¹ Persistence data was estimated for the 2005 and 2006 entering cohorts for Jefferson, Mohawk Valley and Monroe.

² Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate.

Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.

¹ The aggregated SUNY and CC data use estimated persistence data for the 2008 & 2009 cohorts for the XXX institutions that transitioned to the new SIRIS System.

² Since the non-SUNY transfer data is available for three years only, the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number for this cohort.
